

Make Your Own CAKE-ON-A-STICK

Instructions

1. Cut out Section A.

Roll up lengthways around a pencil, secure with sticky tape, then poke the pencil out. Make four incisions along the cake section, and fold them back so they look like this

2. Cut out Section B.

Fold along all the lines.

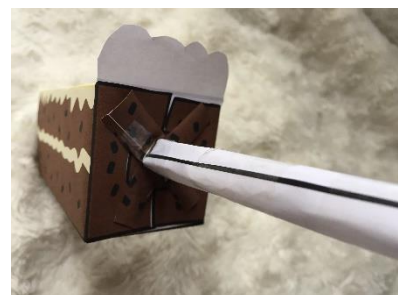

Make an incision on the two tabs at the back of the cake, taking care not to cut all the way through.

3. Pop on some glue, and stick your cake together, slotting in the tabs at the back.

4. Secure Section A to Section B with sticky tape.

You now have an essential piece of your
Day-Out-With-A-Bruv Survival Kit -
Cake-on-a-Stick!

With thanks to Karen Watterson for this excellent make!
