

Pie Chart Book Review

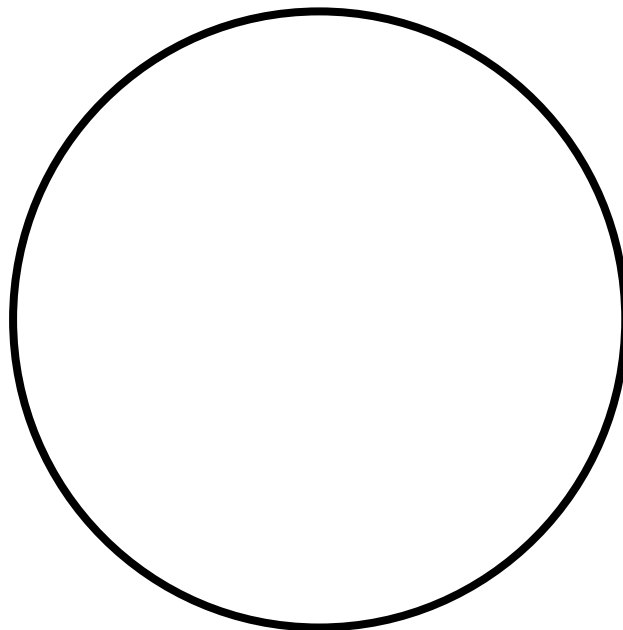

Create a pie chart to help a friend decide if they want to read Planet Stan.

Pie chart slices are called sectors - the largest sectors should represent what you think is most important about the book.

Here are some questions to help: What did you enjoy most about the story? Did you have a favourite character? Can you use an adjective to describe how it made you feel? Would you compare it to another book? What was your favourite chart?

Don't forget to label your sectors and colour them in.
